

OUTREACH EMPOWERMENT DIVERSITY European Network

”IT’S NOT THEM AND US”

It is easy to talk about Europe as if it were one and the same everywhere and for all. Sadly many are left on the outside. Not everyone can participate equally.

The OED network collects examples, methods and recommendations to ensure that education is inclusive of all, and that no person is left out.

It is not a question of them and us. We are all Europeans, and have the same rights to participate in society, get an education, influence our own lives.

In our minds education is key to achieving equality, and OED is a network of adult educators. We know education is not enough, but without education nothing will be achieved. We want to contribute to a better Europe for all of us living here. Join us! You will find us on the web, on twitter, youtube, and facebook.

"This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein."

OED is a European Network run by
EAEA - The European Association
for the Education Adults

Lifelong
Learning
Programme

"To glorify democracy and to silence the people is a farce; to discourse on humanism and to negate people is a lie."

Paulo Freire

THIS IS US

The Outreach - Empowerment - Diversity Network is active in 14 European countries. We are adult education institutions, researchers, NGOs, umbrella organizations and Roma organizations.

THIS IS FOR YOU

We seek out, collate and showcase good practice examples in order to demonstrate how working with diversity and outreach empowers those who engage in adult education.

We draw conclusions from experience in the field and collect this into recommendations for policy makers.

We train practitioners on how to work better with all learners and especially those who have particular learning needs.

We offer a grid to help you identify and analyze good practice examples, looking at both quantitative and qualitative indicators.
